Sealed Frame does not require use of a pump after inflation.
Colour ranges are subject to availability.

ADDITIONAL INFORMATION

Inflatable arches are a simple yet eye-catching product with a number of practical applications. Perfect for start and finish lines in sporting events and raceways, grand entrance ways to a spectacular outdoor event or function, or just as a huge branded billboard to stand over your event. We have a range of inflatable arch designs, including the square inflatable arch providing a neat and structured frame for your entranceway or finish line, which come in a range of sizes from 6 metres all the way to massive 12 metre structures.

Available with or without feet the entire inflatable arch range can also be custom printed to make a unique statement wherever it stands and perfectly represent your message or business. We've previously provided custom inflatable arches for a range of different events including charity groups and fun run and motorbike races and our clients are always amazed with the results.
