ITEM	SPECIFICATION				
Size	3x3m	4x4m	5x5m	6x6m	3x6
Height	4m	4.6m	4.5m	5.6m	5.6m
Clearance	2.25m				
Frame Dimensions	292x34x-16cm	388x35x-22cm	295x35x-25cm	395x35x-25	
Frame Weight	48kg	60kg	75kg	81kg	75kg
Roof Dimensions	49x 46x-19cm	61x58x-26cm	60x40x-40cm	64x59x-34cm	
Roof Weight	12kg	19kg	30kg	35Kg	
Main Profile	Dia. 63mm, 2.5mm Thickness Aluminium				
Framework Material	Aluminium - 6063 T5				
Roof Tension System	Turn buckle tension system				
Feet	Aluminium				
Connectors	Steel				
Fabric	580GSM PVC				
Engineer Certification	Engineer Structural Certificate, Resistance of Fabrics to Water Penetration Test, Ultra Violet Protection Test, Fire Action Analysis				
Marquee Includes	Protective Cover, Sandbags and Steel Pins				
Warranty	5 Year

### AVAILABLE COLOURS

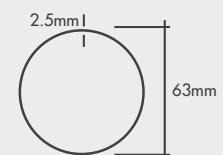

### ADDITIONAL FEATURES

Pavilion marquees are affordable, strong and stylish and perfect for use at trade fairs, shows and exhibitions. The Pavilion frame is made from a robust 63mm circular 6063 T5 aluminium extrusion. A tension wire system is used to support the roof and also increases the marquee strength by bracing the frame. The roof is made from our imported Belgium Sioen PVC and will last for many, many years. The Pavilion range of marquees has a full structural engineers certificate and can be used at all public events where certification is necessary.
