1

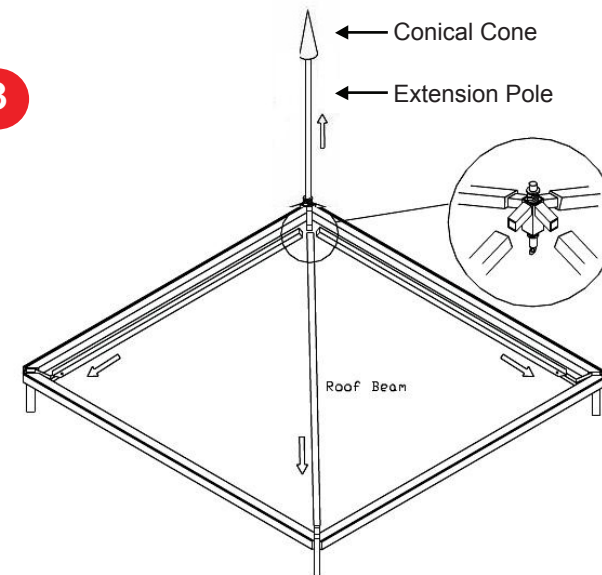

Lay out 4 x Eave Rails and 4 x Corner Connectors as above.

2

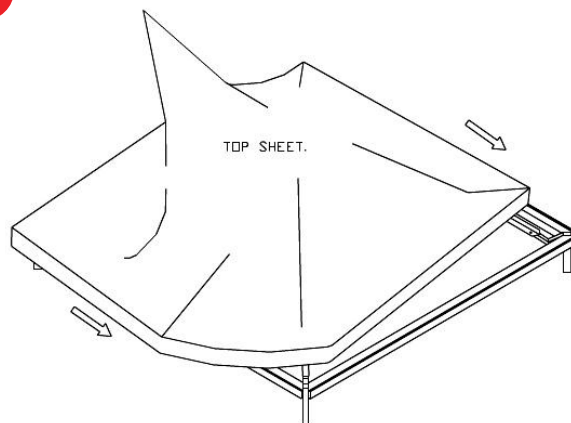

Fit together as shown.

3

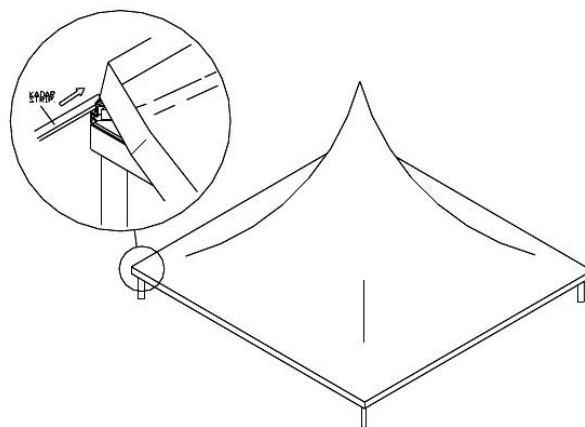

Insert 4 x Roof Beams to Corner Connectors then fit Roof Adjuster (make sure it is wound down to the lowest point).

4

Fit roof over the frame.

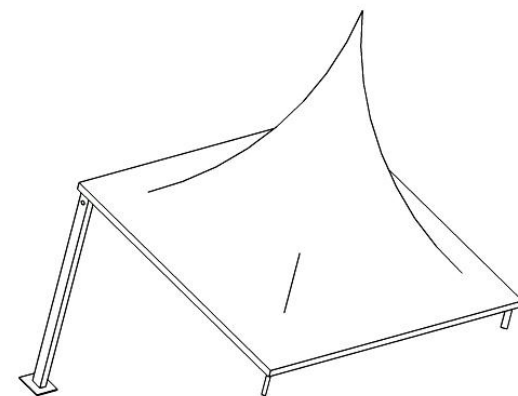

5

Fit Roof Keder into outer sail track on the side of the Eave Beam. Insert Kedar strip into the top of the roof in this same track.

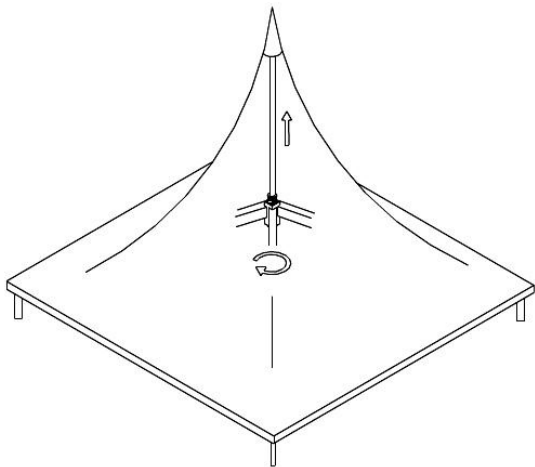

Repeat on all sides.

6

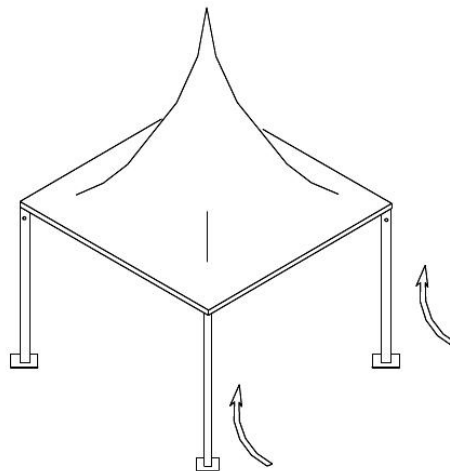

Fit foot plates to all legs using 2 or more people. Raise one side and fit 2 x legs. Fit extension pole and conical cone before fitting remaining legs.

7

Wind up Roof Adjuster until tight.

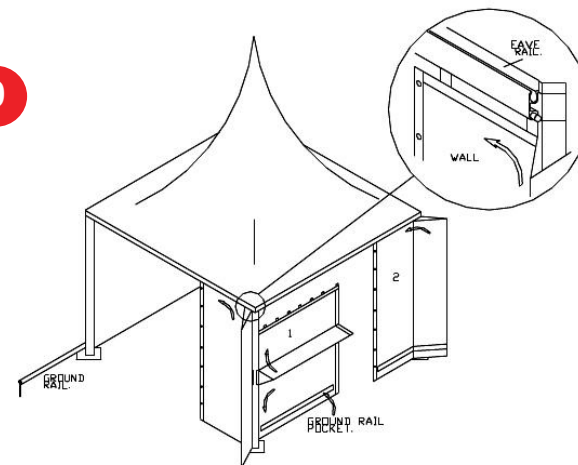

8

Raise other side and fit legs.

Make sure Marquee is secured to ground by approved methods.

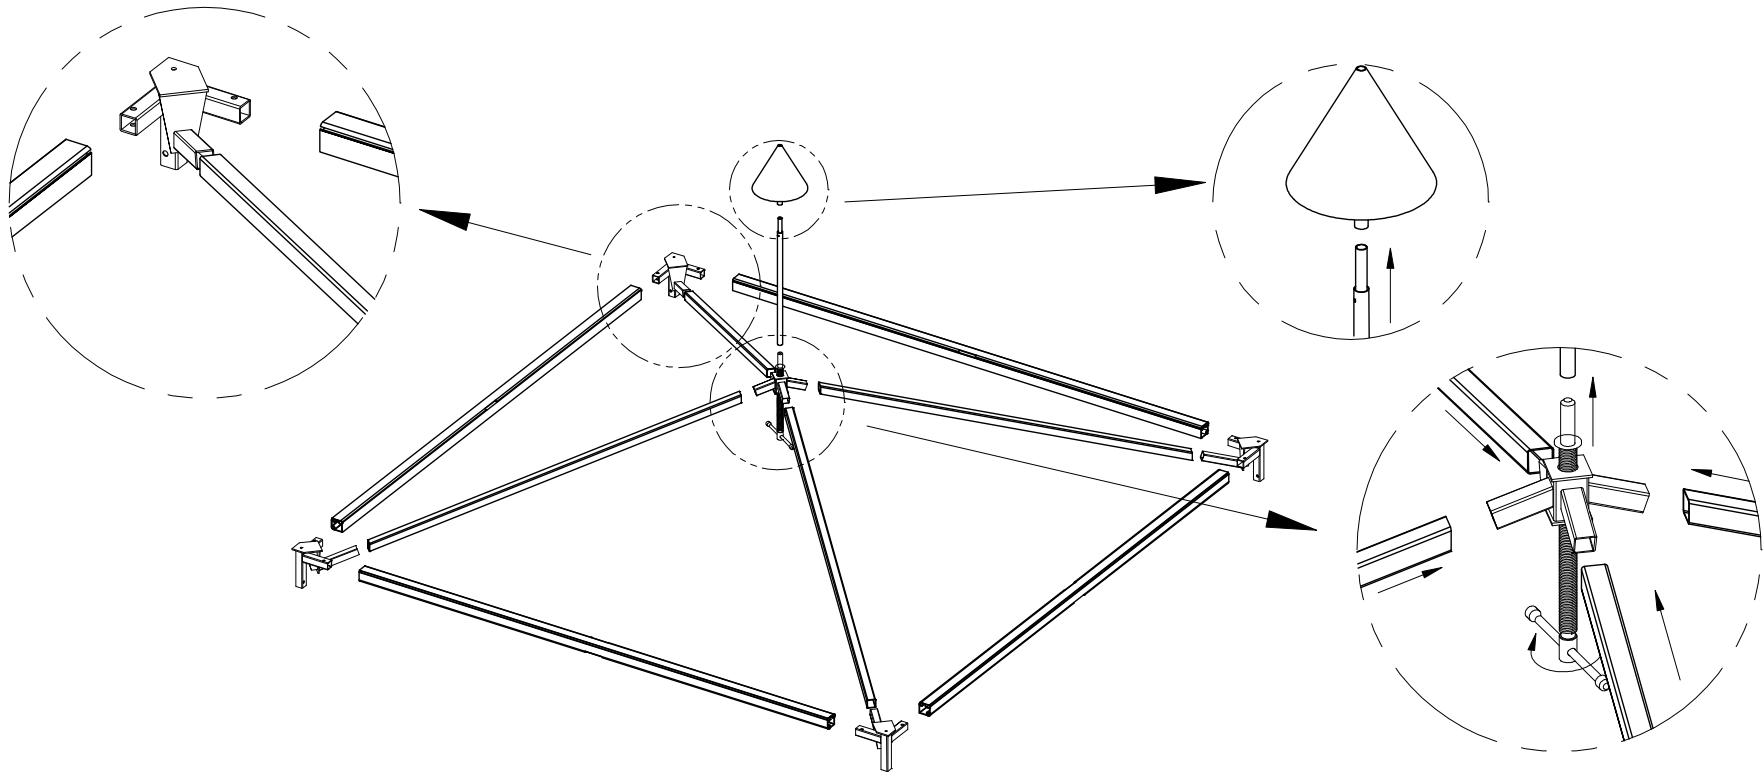

9

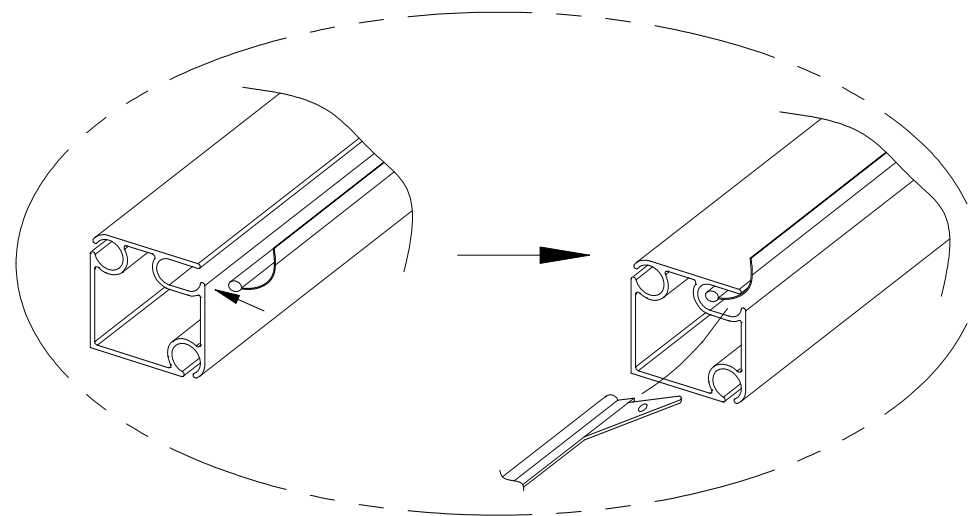

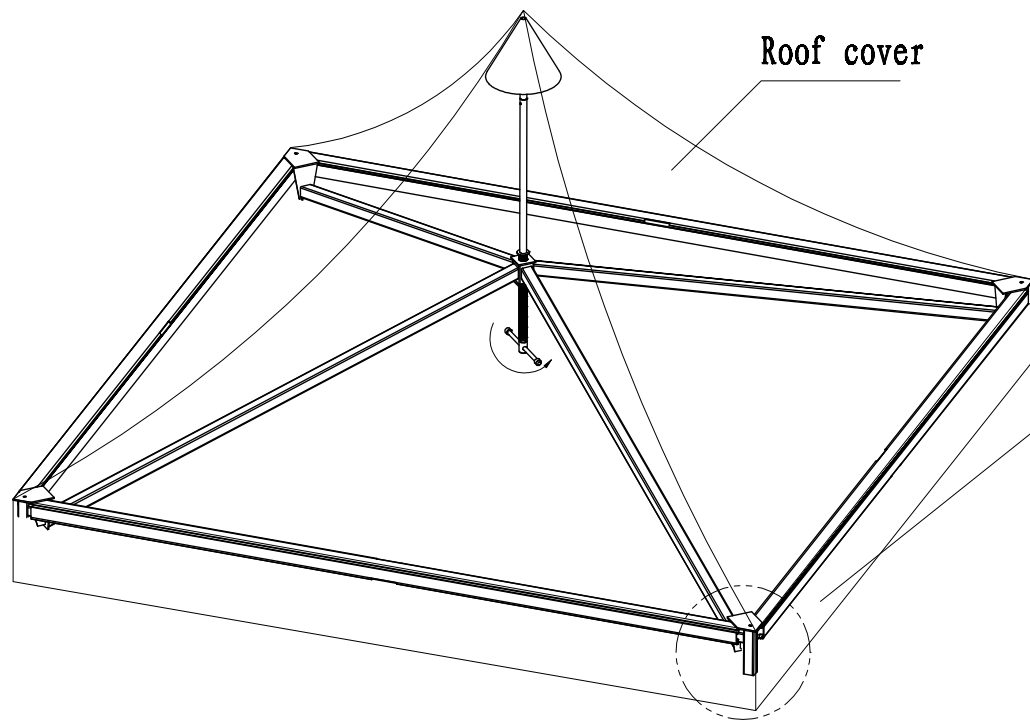

Fit walls into sail track.

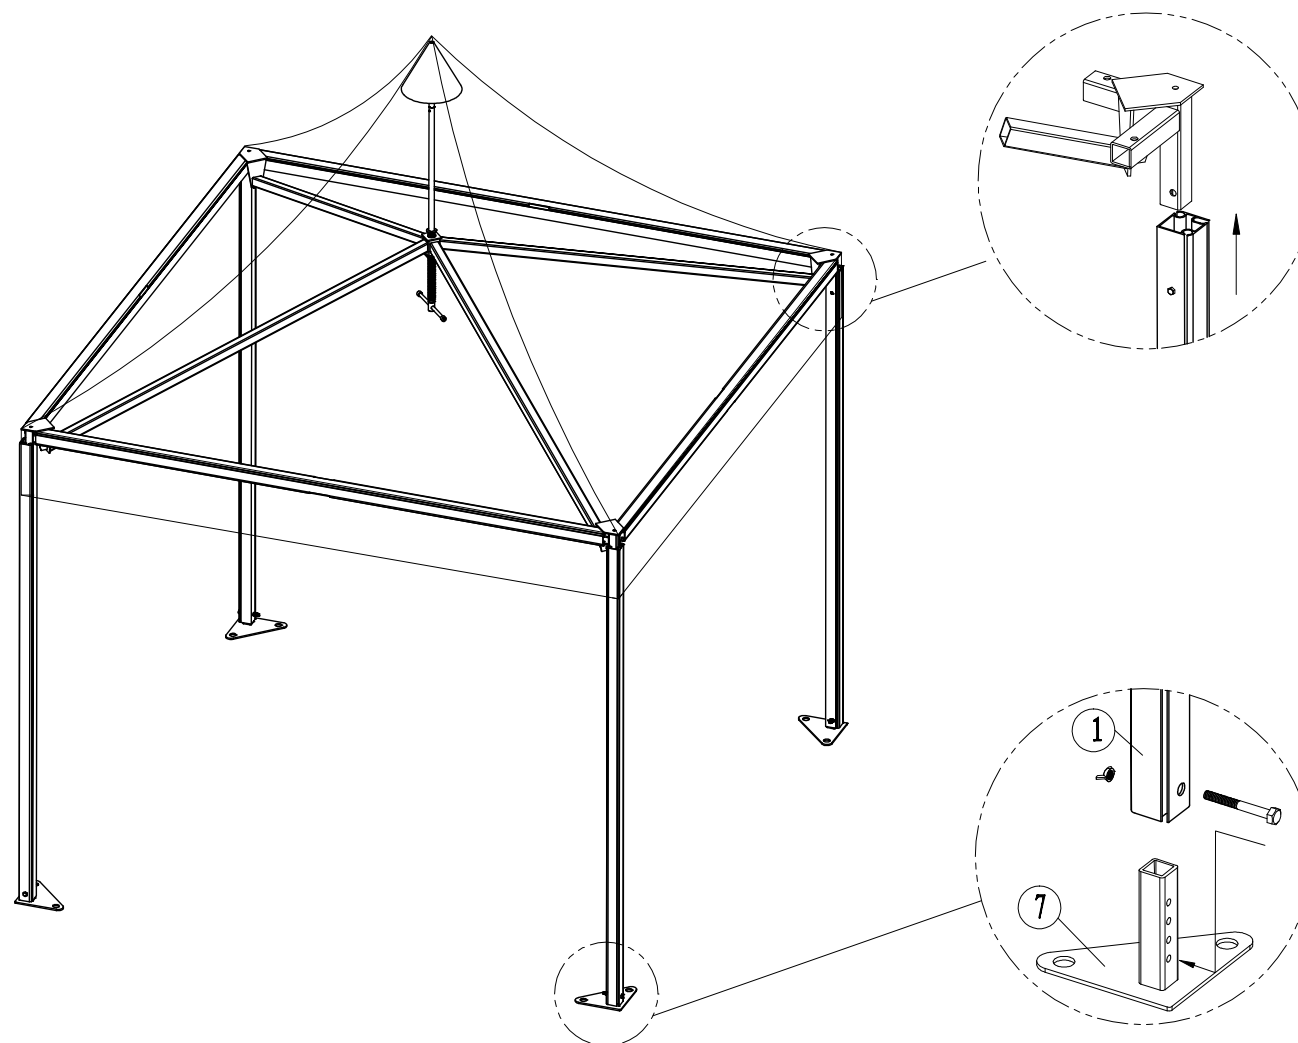

**1** Assemble Frames on ground and prepare for erection.

## 2 Roof Cover

### 3 Upright Support

## 4 Sidewalls
